Endpoint Management
2-Day Workshop

Microsoft Endpoint Manager (MEM) is a 'Unified Endpoint Management' solution. Providing you with one place to manage all your devices securely. Enabling you to meet compliance requirements, and access advanced management and IT operation features in Microsoft 365.

Endpoint Management Key Benefits:

- Improve management capabilities
- Discover and protect endpoint policies
- Secure user identities
- Enable users to be productive

Endpoint Management Key Questions

- How are you managing your mobile devices, laptops, and other user endpoints?
- Do you know if your user's devices are compliant with your IT policies?
- Have you adopted BYOD?
- Are your users productive?

? Did You Know?

49% of employees say they are more productive using their own device
