## Features

- Create Jobs manually or automate from Sales Order Processing.
- Enter Purchase invoices and link to one or more jobs.
- SOP and POP lines can be linked to jobs and shown as commitments.
- Stock can be linked to jobs via Stock Control, Internal Issues and Returns. Allocated stock is shown as committed stock usage.
- Complex job structures can be created with linked works orders allowing allocation of stock to jobs and assisting the material planning process.
- Labour is recorded directly into job costing but can be planned on the built in scheduler to create committed labour.
- Detailed WIP reporting included with standard Sage 200 reports.
- 100% reconciliation between nominal ledger transactions and jobs.
- Job enquiry and management screen provide a simple view of jobs, showing all costs, revenues and budgets with drill down to detail and history.
- Instantly identify outstanding sales and purchases as commitments.
- Jobs are quick and simple to setup, just one click will create a job.
- Most data input is carried out in the normal Sage modules removing duplication.
- Budget by cost heading and optionally by period and cost heading.
- Custom job management tabs and fields with linked workspaces available.
- Drill down to sales orders, purchase orders, purchase invoices, stock transactions (works orders when purchased) and any related documents.
- Create phase, stages and sub stages within jobs

## Easy to Use

- Screens and processes are designed for non-IT users.
- Jobs are quick and simple to setup. Just one click will create a job.
- Most data input is carried out in the normal Sage modules.
- Corrections to job postings can be made via an adjustments function.
