

Keep Your Business **Up and Running**

with Chess Cloud Support for Microsoft 365

Chess Cloud Support for Microsoft 365 helps to keep your organisation up and running at all times

We built our packages with businesses like yours in mind. Whether your IT team need some specialist support with extra complicated end-user issues or you need to allocate the internal resource to innovation - **we're here to help.**

Empower your employees to be more productive

Microsoft 365 delivers a holistic collaboration solution that puts the right tools at team members' fingertips, so they can collaborate in the different ways they choose throughout the day.

While the millennial workforce is actively driving change, there's still a sizable segment of workers who struggle with the new modern workplace technology tools made available to them.

Source: Are workers ready for the workplace of the future?, Information Age, 2016

🔍 Did You Know?

"Change doesn't happen automatically. Most employees don't want to use new technology rolled out by their organization."

Source: Microsoft 365 Adoption Guide, Microsoft, 2019

"80% of end users admit to using their communication tool of choice"

Source: Microsoft 365 Adoption Guide, Microsoft, 2019

Make the most out of Microsoft 365

97% of all attacks are automatically remediated on endpoints by leveraging the power of AI within Microsoft 365 E5

\$30 million is the estimated three-year benefit for a standard 5,000-employee organization using Teams.

12,500 hours can be saved per year in distribution activities through streamlined business processes.

Key Features of Tech2Tech

Tech2Tech is ideal for customers who already have an in-house IT team who provide the day-to-day end user support.

Through the Escalated Support Pack Chess will assist with escalated incidents from named contacts within the in-house technical team, taking on the role of an external 3rd line technical support team.

We help you with the complicated issues you may not be able to solve using your available resource and knowledge.

Support covers:

- Service Desk - Monday – Friday 08:30 – 17:30
- Advanced Technical Incident Support
- Microsoft 365 Services
- Standard Office Applications
- Exchange Online
- SharePoint Administration
- Teams Administration (excludes Voice)
- Azure Active Directory (Identity & MDM)
- Endpoint Management (Intune)

Chess Cloud Adopt

Change Adoption: The Key to Your Microsoft 365 Success

Chess Cloud Adopt powered by Brainstorm Inc, is a cloud-based training platform that accelerates learning and improves your employee proficiency in Microsoft 365 applications.

Its interactive training, how-to-guides, instructional videos, and customised learning paths give employees hands-on experience that better equips them for their role.

While your people are learning, Chess Cloud Adopt transforms insight on employee training into usage reports that include employee adoption of tools and an overview of progress.

Benefits:

- Reduce security risk in your business by ensuring your people are aware of best practices
- Increase productivity and protect return on investment
- Robust and flexible training content
- Increase employee knowledge on tools they use everyday
- Employee guided learning paths are customised to different learning styles and roles within your business

“Organisations that implement digital tools and self-serve tools to make information more accessible to staff are twice as likely to report their digital transformation journey as success.”

*Unlocking success in digital transformations,
McKinsey, 2018*

“Just 45 percent of respondents at larger firms, compared with 58 percent at smaller firms, say frontline employees are visibly engaged in transformations.”

*The people power of transformations,
McKinsey, 2017*

Track and Report with the Enterprise and ACM+ Packs

The learning and adoption platform is fundamental to the remote enablement of users.

Not only can you ensure that a consistent and high level of enablement is being delivered but you can also track and monitor every step of the process users go through, including:

- User application understanding
- User perception of training
- Quality of training
- Relevance to their role
- User engagement with communications
- User engagement with learning materials
- User pass / fail rates (where appropriate)
- User confidence with key applications
- Software utilisation
- The engagement of your users via communications
- User engagement with the training
- The measurement of success criteria

“

“Companies of all sizes can benefit from creative, more digital approaches to engaging employees in a transformation.... More advanced communication tools will be especially helpful in large companies that struggle to engage the front line and in companies with many different sites or locations.”

The people power of transformations, McKinsey, 2017

”

Chess Voice+ Support

Chess Voice+ support for Microsoft Phone System, Audio Conferencing or Microsoft Business Voice for inbound and outbound calling features within the Microsoft Teams add-on.

The pack also covers Chess Teams Direct Routing integration, if this has been set up and configured by Chess.

Support Covers

- Service Desk
Monday – Friday | 08:30 – 17:30
- Phone number assignments
- Emergency dialing policies
- Call queues
- Auto attendants
- Call park policies
- Calling policies
- Caller ID policies
- Voicemail and audio conferencing

“67 percent believe it would be easier to focus on work if important information from all of their apps appeared in a single window”

Business Wire, 2017
