

Endpoint Management

3-Hour Assessment

Microsoft Endpoint Manager (MEM) is a 'Unified Endpoint Management' solution. Providing you with one place to manage all your devices securely. Enabling you to meet compliance requirements, and access advanced management and IT operation features in Microsoft 365.

Microsoft Endpoint Manager combines services such as Microsoft Intune, Configuration Manager, Desktop Analytics, Co-Management, and Windows Autopilot.

These services are part of the Microsoft 365 stack to help secure devices, manage access, protect data and respond and manage risk.

We will be running an exclusive offer for a free of charge assessment. All qualified opportunities will be eligible for a free of charge assessment, if booked in 90 days from the initial quotation.

Endpoint Management 3-Hour Assessment (£300)

Whats included?

The assessment starts with discussions around the organisation's current challenges, concerns, and expectations.

Followed by a demo of the Microsoft Endpoint Management suite (Intune, Configuration Manager, Advanced Desktop Analytics, Microsoft Defender for Endpoint + Azure AD)

Overview of 'MAM-WE' features to empower secure & compliant BYOD without device enrolment

Followed by a discussion on how these features and approaches can be applied to your organisation

The assessment will conclude with a review and an appraisal document outlining recommendations and next steps

Endpoint Management Key Benefits:

- Improve management capabilities
- Discover and protect endpoint policies
- Secure user identities
- Enable users to be productive

Endpoint Management Key Questions

- How are you managing your mobile devices, laptops, and other user endpoints?
- Do you know if your user's devices are compliant with your IT policies?
- Have you adopted BYOD?
- Are your users productive?

Still not sure? No need to worry. Get in touch with our team and we'll help you choose the right solution for your business.
